Australia is another English speaking country. It's one of the biggest countries in the world. The original people are called the Aborigines. Ayers Rock is the center of Australia. It's also called Uluru by the Aborigines. The Australians today are also called the Aussies. Many famous people come from Australia. For example, P.L. Travers was a famous writer. She wrote Mary Poppins ! Do you know another famous Aussie ?

This is the Australian flag ! It's red, white and blue with six stars. Does it remind you of something ?

In Sydney there is the Opera House, the Harbour Bridge and lots of skyscrapers.

There are wonderful beaches in Australia where you can surf and swim.

There's also a huge desert area, « the outback ». In Australia you can see many exotic animals like the kangaroo, the koala and the platypus. The weather can be very hot. Don't forget the sunscreen to avoid sunburns !

CIVILISATION

L'Australie est le 6^e plus grand pays du monde avec 7,6 millions de km². Sa population en revanche n'est que de 23 millions, ce qui en fait un des pays à la plus faible densité (environ 3 habitants/km²).

C'est un pays de contrastes naturels avec un centre désertique, un nord tropical, un sud-est tempéré et des zones de prairies et de savane.

La population est concentrée sur les côtes est et sud-ouest. Elle est composée de 3 % d'aborigènes, et de 25% d'immigrés. La majorité de la population descend des colons et des immigrants européens. Ancienne colonie britannique, l'Australie acquiert son indépendance au cours du XX^e siècle.

L'Australie a une économie prospère et diversifiée dans laquelle le tourisme occupe une part croissante. Les sports nautiques et les plages sont très renommés.
